

Looking for High School/College Interns

Software startup company MillionsPerSecond (MPS) is looking for High School/College interns to work on the **performance evaluation of software** using one or many languages like C/C++/Java/C#/Go/Python.

- 100% work from home and Bi-weekly face-to-face meetup in Woodbridge, NJ.
- It's an unpaid internship.
- Deep desire to understanding the software application from high level language to low level and vice versa.
- Have your own computer.
- You will be required to sign a Non-disclosure Agreement and provide an ID proof.
- There is a resource fee 20\$/month will be charged.
